Fertilizer Research **44:** 265–267, 1996.

CONTENTS Volume 44 1996

Volume 44 No. 1

Comparison of resin beads and resin membranes for extracting soil phosphate 1–8
M.L.V. Fernandes, G.P. Warren

Dryland wheat yields in relation to soil organic carbon, applied nitrogen, stored water and rainfall distribution 9–15
K.S. Sandhu, D.K. Benbi, S.S. Prihar

Effect of nitrification inhibitors on herb and essential oil yield of Japanese mint on sandy soil 17–21
M. Ram, D.D. Patra, D.V. Singh

Relationship between extracted phosphorus and sorghum yield in a Vertisol and an Alfisol under rainfed cropping 23–26
K.L. Sahrawat, G. Pardhasaradhi, T.J. Rego, M.H. Rahman

Modelling the residual effects of phosphate fertilizer in the Ropsley (UK) field trial 1978–1990 27–36
A. Bhogal, S.D. Young, R. Ralph, S. Bradley, J. Craigon

Nitrogen, phosphorus and potassium relations in five major cereals reviewed in respect to fertilizer recommendations using simulation modelling 37–49
N. van Duivenbooden, C.T. de Wit, H. van Keulen

Measured and simulated nitrogen dynamics in winter wheat and a clay soil subjected to drought stress or daily irrigation and fertilization 51–63
T. Kätterer, O. Andrén

Influence of leather meal fertilizer on soil organic matter: A laboratory study 65–72
M. Govi, C. Ciavatta, L. Sitti, G. Bonoretti, C. Gessa

Orthophosphate solubility in waters of different ionic composition 73–78
P. Imas, B. Bar-Yosef, I. Levkovitch, M. Keinan

Volume 44 No. 2

The performance of the Danish simulation model DAISY in prediction of N_{min} at spring 97–85
C. Jensen, B. Stougaard, H. Spelling Østergaard

Potential impact of agroforestry on soil nutrient balances at the farm scale in the East African Highlands 87–99
K.D. Shepherd, E. Ohlsson, J.R. Okalebo, J.K. Ndufa

Greenhouse evaluation of agronomic potential of different sources of phosphate fertilizer in a typical concretionary soil of Northern Ghana 101–106
E. Owusu-Bennoah, D.K. Acquaye

Phosphorus sorption by three cultivated savanna Alfisols as influenced by pH 107–112
J.O. Agbenin

Agrononic evaluation of fertilizer products derived from Sukulu Hills phosphate rock 113–122
C.N. Butegwa, G.L. Mullins, S.H. Chien

Fertigation versus conventional fertilization of flatwoods grapefruit 123–128
B.J. Boman

Distribution of uranium in the production of triple superphosphate (TSP) fertilizer and phosphoric acid 129–131
E. Erdem, N. Tınkılıç, V. Turan Yılmaz, A. Uyanık, H. Ölmez

A new route for the beneficiation of low grade calcareous phosphate rocks 133–142
Zafar Iqbal Zafar, M.M. Anwar, D.W. Pritchard

Effect of fertilization on organic and microbial biomass nitrogen using ^{15}N under corn (*Zea mays* L.) in two Quebec soils 143–149
B.C. Liang, A.F. MacKenzie

Predicting the field performance of twelve commercial liming materials from southern Australia 151–161
M.K. Conyers, B.J. Scottt, R. Fisher, W. Lill

Volume 44 No. 3

Residual effects of growing mungbean and uridbean on the yield and nitrogen uptake of a succeeding wheat crop 163–168
S.N. Sharma, R. Prasad, S. Singh

Use of nitrification inhibitors (neem and DCD) to increase N efficiency in maize-wheat cropping system 169–175
S.N. Sharma, R. Prasad

Effect of fertilizer type, sampling depth, and years on Colwell soil test phosphorus for phosphorus leaching soils 177–188
M.D.A. Bolland, J.S. Yeates, M.F. Clarke

Study of the properties of urea–ammonium sulphate (UAS) pellets 189–194
M. Rahman, Y. Pelovski, S. Stefanova, P. Bozadjiev

Response of rainfed bread and durum wheat to source, level and timing of nitrogen fertilizer on two Ethiopian Vertisols: II. N uptake, recovery and efficiency 195–204
Tilahun Geleto, D.G. Tanner, Tekalign Mamo, Getinet Gebeyhu

Incubating superphosphate in 'dry' soil can reduce its effectiveness 205–215
M.D.A. Bolland, N.J. Barrow

The effect of foliar supplements of potassium nitrate and urea on the yield of winter wheat 217–223
P.B. Barraclough, J. Haynes

Identification of peat and leonardite using humification parameters and isoelectric focusing (IEF): a first approach 225–230
C. Ciavatta, M. Govi, G. Bonoretti, C. Gessa

Induced phosphorus fixation and the effectiveness of phosphate fertilizers derived from Sukulu Hills phosphate rock 231–240
C.N. Butegwa, G.L. Mullins, S.H. Chien

Accumulation of heavy metals in soils and plant after long-term use of fertilizers and fungicides in Tanzania 241–248
E. Semu, B.R. Singh

Identification of blood meal in fertilizers 249–253
C. Ciavatta, M. Govi, L. Sitte, G. Gessa

The effects of different manufacturing techniques on the availability of sulfate to pasture from mixtures of elemental sulfur with either triple superphosphate or partially acidulated reactive phosphate rock 255–263
C.C. Boswell, B. Swanney, A.C. Braithwaite
